

2008 QLD AOA Annual Meeting

Scientific Program

Saturday 07 June 2008

Scientific Session 1 – Noosa Ballroom

Original Research

0800 – 1000

Chairperson: Tony Ganko

- | | |
|--------------------|---|
| 0800 – 0807 | The Biomechanical Effects of Anterior Vertebral Stapling
Mark Shillington |
| 0807 – 0814 | Early Splatt in the Management of Club-Foot Relapse
Catherine McDougall |
| 0814 – 0821 | Prospective Randomized Trial Comparing the IMHS with the DHS for Treatment of Pertrochanteric Neck of Femur Fractures: A Comparison of the Operative
Jason Beer |
| 0821 – 0828 | Potential for Infection in Orthopaedic Practice Due to Individually Packaged Screws
Geoff Smith |
| 0828 – 0835 | The Implementation of use of The External Rotation Brace for Initial Treatment of First Time Anterior Shoulder Dislocators
Angus Moxon |
| 0835 – 0842 | Trying to Improve Function Following Endoprosthetic Replacement in Patients with Lower Limb Bone Sarcoma
Peter Steadman |
| 0842 – 0849 | Comparison of Health-Related Quality of Life Following Fusion for Lumbar Degenerative Spondylolisthesis with Hip and Knee Joint Replacement Surgery and with Population Norms
Peter McCombe |
| 0849 – 0856 | Use of Inferior Vena Cava Filters in Orthopedic Patients: A Local Perspective
Kate Campbell |
| 0856 – 0903 | Antibiotic Prophylaxis in Joint Arthroplasty - Do We Get it Right?
Ben Parkinson |
| 0903 – 0910 | Clinical Outcomes and Radiological Loosening – A Retrospective Study of 463 Elite Plus Femoral Components
Margot Cooper |

Saturday 07 June 2008

Scientific Session 1 Cont - Noosa Ballroom

Original Research

0800 - 1000

Chairperson: Tony Ganko

0910 - 0930

Discussion

0930 - 1000

The Evolution of Sarcoma Management

Peter Choong

1000 - 1030

Morning Refreshments - Industry Exhibition Area

Scientific Session 2 - Noosa Ballroom

Original Research / Navigation

1030 - 1130

Chairperson: Peter McEwen

1030 - 1037

Two-Tunnel Vs Open Carpal Tunnel Release in Bilateral Carpal Tunnel Syndrome - An Early Report of a Prospective Randomised Trial

Margot Cooper

1037 - 1044

Early Outcomes of Patella Resurfacing in Total Knee Arthroplasty

Warren Clements

1044 - 1051

Patellofemoral Complications with the Optetrak PS Knee System

Lee Imeson

1051 - 1100

Discussion

Navigation Update

1100 - 1110

Spine

Paul Licina

1110 - 1120

Hip

Hugh English

1120 - 1130

The Evidence

Matt Wilkinson

Saturday 07 June 2008

Scientific Session 3 – Noosa Ballroom

Controversies for Debate

1130 – 1300

Chairperson: Peter Brazel

- 1130 – 1140 High Flex Knees – Solving the Problem or Bending the Rules
Ashish Gupta
- Debate**
- 1140 – 1200 Unicompartmental Knee Replacement – Still a Role to Play?
For – Peter McEwan
Against – Hugh English
- 1200 – 1220 Disc Replacement – The Proven Way Forward?
For – Peter McCombe
Against – Paul Licina
- 1220 – 1240 Hip Resurfacing – Solving the Problems of THR
For – Patrick Weinrauch
Against – Gary Nielsen
- 1240 – 1300 Discussion
- 1300 Lunch – Industry Exhibition Area
- 1900 Conference Dinner – Season Restaurant

Sunday 08 June 2008

Scientific Session 4 – Noosa Ballroom

Power Session

0830 – 1030

Chairperson: Peter Steadman

- 0830 – 0837 Nutritional Deficiency in Hip Joint Arthroplasty
David Shooter
- 0837 – 0844 Biomechanical Testing of Bioabsorbable Impaction Grafting
David Wheatley
- 0844 – 0851 The Accuracy of Image-Free Computer Navigation in Hip Resurfacing
Peter Hucker

Sunday 08 June 2008

Scientific Session 4 Cont - Noosa Ballroom

Power Session

0830 - 1030

Chairperson: Peter Steadman

- | | |
|--------------------|--|
| 0851 - 0858 | Accuracy of Acetabular Cup Positioning Using Imageless Navigation Imageless Navigated Acetabular Cup Position Versus
Erik Hohmann |
| 0858 - 0900 | Discussion |
| 0900 - 0903 | Nothing to Sneeze At!
David Graham |
| 0903 - 0906 | Outcomes from Fast-Fixtm Anchor Meniscal Repairs: A Retrospective Study
David Graham |
| 0906 - 0909 | Transfusion Practices at a Tertiary Centre
Benjamin Kenny |
| 0909 - 0912 | The Efficacy of a Simple Screening Tool Administered by Junior Medical Staff in Determining a Patients Requirement for Elective Surgery
Anthony O'Neill |
| 0912 - 0915 | Assessment of Rates of Fusion One Year Post-Operatively for Anterior Cervical Discectomy and Fusion Using Cervios Cage and Chronos Bone Substitute
Alan Loch |
| 0915 - 0918 | Epidemiology of Calcaneal Fractures
Tim Dwyer |
| 0918 - 0921 | Low Cost Polymer Intramedullary Nails for Fracture Fixation. A Biomechanical Study in a Porcine Femur Model
David Lewis |
| 0921 - 0924 | Factors Associated with Failure of the Intramedullary Hip Screw (IMHS) Due to Cut-Out
Geoff Smith |
| 0924 - 0930 | Discussion |
| 0930 - 0933 | What Factors are Associated with Recurrence of Osteoid Osteomas Treated with CT Guided Percutaneous Radiofrequency Thermocoagulation?
Gillian Cribb |

Sunday 08 June 2008

Scientific Session 4 Cont - Noosa Ballroom

Power Session

0830 - 1030

Chairperson: Peter Steadman

- 0933 - 0936** Use of Hyaluronan Intra-Articular Injection for Moderate Osteoarthritis of the Knee - Is There a Role?
Ben Parkinson
- 0936 - 0939** Adequacy of Musculoskeletal Education amongst Queensland Interns
Kate Campbell
- 0939 - 0942** Investigation of Time Spent Operating During Elective Orthopaedic Lists
Tendai Mwaturura
- 0942 - 0945** The Three Ligament Tenodesis (3lt) Procedure for Scapholunate Ligament Reconstruction. Early Results and Experience outside a Specialized Upper Limb Unit
Timothy McMeniman
- 0945 - 0948** A Prospective Review of Appetite Loss in Primary Joint Replacement Patients
Shane Prodger
- 0948 - 0951** The Achillon® Achilles Tendon Repair - Is it Strong Enough?
Ryan Shulman
- 0951 - 0954** Infuse (RH-BMP2) Findings and Comment on its Cost-Effectiveness
Ulf Landgraf
- 0954 - 1000** **Discussion**
- 1000 - 1003** Flexion Range of Motion in Mobile Bearing Total Knee Arthroplasty: Posterior Cruciate Substituting Versus Cruciate Retaining
Chris Bell
- 1003 - 1006** Maximum Flexion in Total Knee Arthroplasty Prostheses: A Comparative, Prospective Analysis.
Napoleon Chiu
- 1006 - 1009** Use of Bisphosphonates in the Management of Osteonecrosis and Fracture Non-Union in the Paediatric Population - A Case Series
David Shooter
- 1009 - 1012** One Year Outcomes of Lumbar Disc Replacement
Allan Loch

Sunday 08 June 2008

Scientific Session 4 Cont. - Noosa Ballroom

Power Session

0830 - 1030

Chairperson: Peter Steadman

- | | |
|--------------------|---|
| 1012 - 1015 | The Role of Arthroscopy in the Diagnosis and Treatment of Children with Septic Arthritis of the Hip
Allan Loch |
| 1015 - 1018 | Does Muscle Strength Influence Knee Functionality in ACL Deficient and ACL Reconstructed Patients?
Erik Hohmann |
| 1018 - 1021 | Non-Treatment of Boxer's Fractures - Clinical and Radiographic Outcomes
Meghan Evans |
| 1021 - 1024 | Distribution of Dupuytren's Disease - Relevance to Surgical Management
Ben Parkinson |
| 1024 - 1030 | Discussion |
| 1030 - 1100 | Morning Refreshments - Industry Exhibition Area |

Scientific Session 5 - Noosa Ballroom

Education and Standards

1100 - 1200

Chairperson: Greg Gillet

- | | |
|--------------------|--|
| 1100 - 1130 | Controversies and future directions in Orthopaedic Training
Peter Choong |
| 1130 - 1145 | AOA Matters
Ian Dickinson |
| 1145 - 1200 | QASM
John Cohen |

Sunday 08 June 2008

Scientific Session 6 – Noosa Ballroom

Original Research

1200 – 1345

Chairperson: Tony Ganko

- | | |
|--------------------|---|
| 1200 – 1207 | The Relationship between Subjective and Objective Outcome. Data after Total Knee Replacement
Erik Hohmann |
| 1207 – 1214 | The Relationship between Knee Rating Systems, Isokinetic and Isometric Testing, and Functional Testing in the ACL-Reconstructed and ACL Deficient Knee
Erik Hohmann |
| 1214 – 1221 | A Prospective Study of Bone and Joint Melioidosis in the Top End of the Northern Territory of Australia
Jonathan Smith |
| 1221 – 1228 | Morphological Analysis of Rotator Cuff Tears
Annabelle Stabler |
| 1228 – 1235 | Synthesis of a Novel Biomimetic Bone Scaffold
Benjamin Kenny |
| 1235 – 1242 | Outcome of Lisfranc Injuries in the Athlete
Sarah Watts |
| 1242 – 1249 | Discussion |
| 1249 – 1256 | Coronal Alignment in Total Knee Arthroplasty: Measured Versus Arbitrarily Set Distal Femoral Resection Angle
Peter McEwen |
| 1256 – 1303 | Large Osteochondral Defects of the Femoral Condyle with the Mega Dats Technique - A 5 Year Follow
Erik Hohmann |
| 1303 – 1310 | Retrospective Analysis of the Results of Using OPI in Traumatic Limb Fractures. A Case Series of 27 Patients
Charles Dick |
| 1310 – 1317 | Management of Intraoperative Medial Tibial Plateau Fracture Associated with Nexgen Total Knee Prosthesis
Brendan Buragry |
| 1317 – 1345 | Discussion |
| 1345 | Meeting Close |
| 1345 | Farewell Lunch – Industry Exhibition Area |
